DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Response to Arguments

Applicant's arguments presented in the telephone interview on 6/14/2006 with respect to the 103 rejection of claim 25 have been fully considered and are persuasive. The previously made 103 rejection of claim 25 and the finality of the previous office action have been withdrawn.

Allowable Subject Matter

Claim 25 is allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Prior art fails to teach a three port power converter in which each port is commonly connected to a transformer core in which one of the ports comprises a battery and a battery port that operates in a free-running mode and provides frequency and phase references that are followed by synchronous switches in all the remaining ports. Therefore, claim 25 is allowable over prior art.
